BAXTER & WOODMAN, INC. ANNOUNCES NEW BOARD MEMBERS

Baxter & Woodman, Inc. Consulting Engineers is pleased to announce the election of Deborah Finn, Louis D. Haussmann and Christopher T. Sosnowski as Vice Presidents of the firm and to seats on the firm's Board of Directors.

Deborah Finn, CPSM joined the firm in 1994 and is the Director of Marketing. Ms. Finn manages all aspects of marketing including planning and budgeting, business development, and public relations. During her tenure she established the firm's marketing business practices and developed a department of eight professionals who support 200+ employees working from nine regional offices. Ms. Finn earned the designation of Certified Professional Services Marketer in 2006 from the Society of Marketing Professional Services, and is a recipient of the Women of Achievement Award from the McHenry County Chapter of Women in Management. Ms. Finn is based at the firm's Crystal Lake, Illinois headquarters.

Louis D. Haussmann, PE, PTOE joined the firm in 1996 and is the firm's Transportation Group Leader. Mr. Haussmann manages the firm's transportation engineers, located in nine offices throughout northern Illinois and southern Wisconsin. Focusing on the planning and design of municipal, county, state and federal projects, Mr. Haussmann has been instrumental in the growth of the firm's transportation division. Earning the American Public Works Association Southwest Branch Transportation Project of the Year Award for the past six years, he has significantly contributed to the firm's expanding reputation as a leading provider of transportation engineering services. Mr. Haussmann earned his Bachelor and Master of Science degrees in Civil Engineering from the University of Illinois at Urbana Champaign. He is a registered Professional

Engineer in Illinois, Indiana and Wisconsin and a Professional Traffic Operations Engineer [™]. Mr. Hausmann is based at the firm's Mokena, Illinois office.

Christopher T. Sosnowski, PE, MCP joined the firm in 1997 and is the General Manager of B&W Control Systems Integration (BWCSI), a wholly-owned, technology-focused subsidiary of Baxter & Woodman, Inc. As a founding member of BWCSI, Mr. Sosnowski led this segment of the firm's business to become one of the top water/wastewater systems integrators and government technology providers in the Midwest. Mr. Sosnowski is a Microsoft Certified Professional and has presented locally and nationally on municipal-specific technology applications. Mr. Sosnowski received his B.S. in Civil Engineering from the University of Illinois in Urbana-Champaign and his M.S. in Civil and Environmental Engineering from the University of Wisconsin in Madison and is a Professional Engineer in Illinois. Mr. Sosnowski is based at the firm's Crystal Lake, Illinois headquarters.

Baxter & Woodman, Inc. is an employee-owned Engineering News-Record Top 500 Design Firm which provides planning, design, construction and technology services for water, wastewater, stormwater and transportation facilities for municipalities, counties and state agencies. Environmental, geographic information systems (GIS), water and wastewater operations, and advanced technology needs complement the firm's civil engineering expertise. Clients are served from nine regional offices in northern Illinois and southern Wisconsin.
